1- Installing Web-Browser.

2- Installing VS-Code

3- Making Folders And Git-init

4- User & Email Verification (Git)

A screenshot of a terminal window showing the configuration of global user information. The user is setting the global user name to 'HxSageterrius' and the global user email to 'you@example.com'. The terminal also shows the previous step where an error occurred because no action was specified.

```
DELL@DESKTOP-B8HPRK7 MINGW64 ~
❸ $ git config --global user.name Hafiz Muhammad Hamza Khalid
error: no action specified

DELL@DESKTOP-B8HPRK7 MINGW64 ~
❹ $ git config --global user.name HxSageterrius

DELL@DESKTOP-B8HPRK7 MINGW64 ~
❺ $ git config --global user.email "you@example.com"

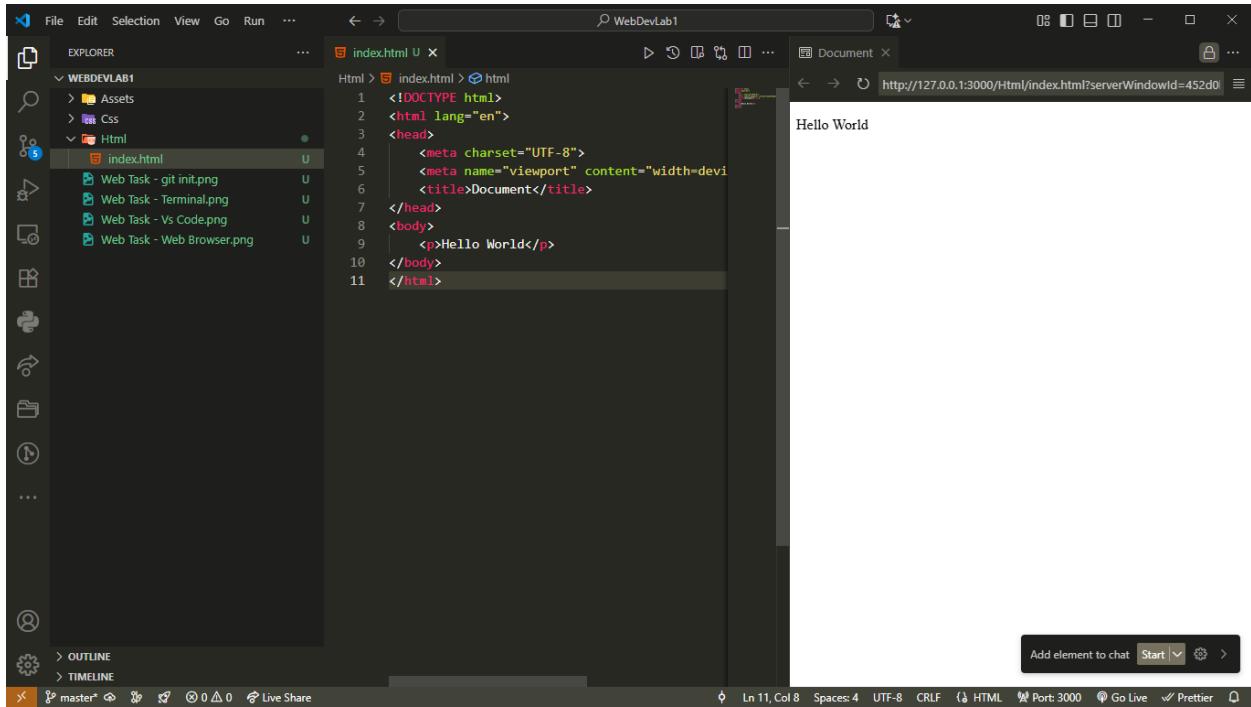

DELL@DESKTOP-B8HPRK7 MINGW64 ~
❻ $ git config --global user.email "you@example.com"

DELL@DESKTOP-B8HPRK7 MINGW64 ~
❼ $ git config --global user.email "you@example.com"

DELL@DESKTOP-B8HPRK7 MINGW64 ~
❽ $ git config --global user.email hkft7000@gmail.com

DELL@DESKTOP-B8HPRK7 MINGW64 ~
❾ $
```

5- Installing Live server

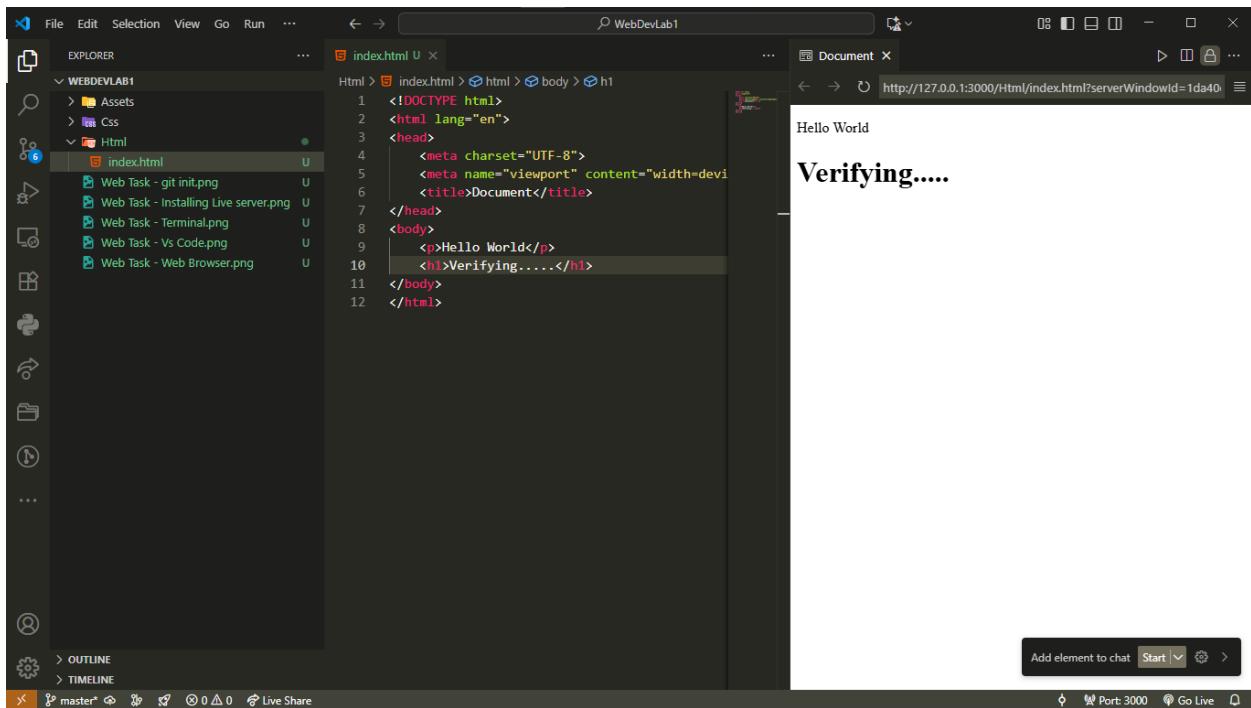

The screenshot shows the Visual Studio Code interface with the "Live Share" extension installed. The Explorer sidebar shows a folder named "WEBDEVLAB1" containing "Assets", "Css", and "Html" subfolders. The "index.html" file is selected in the "Html" folder. The "index.html" code editor shows the following HTML:

```
<!DOCTYPE html>
<html lang="en">
<head>
    <meta charset="UTF-8">
    <meta name="viewport" content="width=device-width, initial-scale=1.0">
    <title>Document</title>
</head>
<body>
    <p>Hello World</p>
</body>
</html>
```

The "Document" tab shows the browser output: "Hello World". The status bar at the bottom indicates "Port: 3000" and "Go Live".

6- Verifying.....

The screenshot shows the Visual Studio Code interface with the "Live Share" extension installed. The Explorer sidebar shows a folder named "WEBDEVLAB1" containing "Assets", "Css", and "Html" subfolders. The "index.html" file is selected in the "Html" folder. The "index.html" code editor shows the following HTML:

```
<!DOCTYPE html>
<html lang="en">
<head>
    <meta charset="UTF-8">
    <meta name="viewport" content="width=device-width, initial-scale=1.0">
    <title>Document</title>
</head>
<body>
    <p>Hello World</p>
    <h1>Verifying.....</h1>
</body>
</html>
```

The "Document" tab shows the browser output: "Verifying.....". The status bar at the bottom indicates "Port: 3000" and "Go Live".
